

# Turbo Manatee (TUMA)

Whitepaper v1.0 — Official English Edition

BNB Smart Chain • Decentralized Meme Token • Community Driven

# 1. Introduction

Turbo Manatee (TUMA) is a decentralized meme token deployed on the BNB Smart Chain (BSC). Its mission is to redefine transparency, fairness, and community empowerment within the Web3 ecosystem. TUMA embraces the playful spirit of meme culture while implementing industry-level security standards, ensuring that every participant can engage with confidence.

# 2. Vision & Mission

TUMA aims to build a vibrant, fun, and highly engaged meme ecosystem backed by transparency and strong community governance. Core objectives include:

- Establish a trusted and decentralized meme token with zero developer control.
- Foster a global community through events, NFTs, and Web3-driven interactions.
- Develop long-term utilities including NFT collections, community tools, and gamified features.
- Provide a safe and transparent environment with renounced ownership and verifiable tokenomics.

# 3. Smart Contract Information

Token Contract Address: 0xeD89776141b1A62ADfbf3c243b75600Eb2c4b430

Contract Creator: 0x894ab58b1aeff8b79bc47af3897695092d23d5d2

Chain: BNB Smart Chain (BEP20 Standard)

# 4. Tokenomics Distribution

| Category            | Percentage | Amount     | Description                   |
|---------------------|------------|------------|-------------------------------|
| Market Distribution | 45%        | 45,000,000 | Gradual market circulation    |
| Liquidity Pool      | 10%        | 10,000,000 | Initial PancakeSwap liquidity |
| Airdrop / Events    | 25%        | 25,000,000 | Community rewards & airdrops  |
| Team / Development  | 20%        | 20,000,000 | Team operation & development  |
| Contract Creation   | 0%         | 0          | Ownership fully renounced     |

# 5. Ecosystem Development

The TUMA ecosystem will expand through the following components: • NFT Collections — Official Turbo Manatee NFT series. • Community Events — Airdrops, meme contests, and ambassador programs. • Utilities — Tools, dashboards, staking exploration, and interactive community features. • Cross-Chain Compatibility — Future integrations with multi-chain environments.

## 6. Security Measures

TUMA is engineered with a strong focus on transparency and user protection.

Security highlights: • Ownership fully renounced — no developer privileges. • No blacklist, no hidden taxes, no minting functions. • Verified contract with immutable supply. • Risk-free trading logic aligned with standard BEP20.

## 7. Roadmap

Phase 1 — Foundation

- Token deployment
- Official website launch
- Social channels established (X, Telegram)

Phase 2 — Expansion

- NFT collections
- Marketing campaigns
- Listing on decentralized platforms

Phase 3 — Ecosystem Growth

- Strategic partnerships
- Community utility tools
- Broader Web3 integrations
